GENERAL DIRECTIONS TO OUR PATRONS
SEEDS BY MAIL

IMPORTANT NOTE—The weight limits in the 1st, 2nd and 3rd zones have been increased to 70 pounds; in other zones the limit is now 50 pounds.

Parcels Post—Since the installation of the new parcel post law seeds, bulbs, tools, plants and garden supplies (excepting poisons and liquids) may be sent by mail to all parts of the United States, including Alaska, Canal Zone, Guam, Hawaii, Porto Rico and the Philpphines. Packages are subject to a maximum weight in the first and second and third zone of 70 pounds; in all other zones of 50 pounds. The maximum size of a package is 84 inches for length and largeness of the sixth combined.

Zone Rates—May be had by applying to your postmaster, who will tell you which zone you are in with reference to Los Angeles or upon application we will tell you if you supply us with the name of your postoffice.

For Parcels Weighing 8 Ounces or Less, containing seeds, bulbs or books only, the rate of postage to all zones is 1½ cents for 2 ounces or fractions thereof. (Over 8 ounces the parcels post rates apply.)

On shipments weighing 20 pounds or more beyond the 2d postal zone it is cheaper to ship seeds by express. As the express companies give a receipt for each package, it amounts practically to insurance without cost, whereas it costs extra, according to value, to insure a parcel post package. We guarantee the safe arrival in the U. S. of all seeds shipped by express or insured parcel post.

To foreign countries the parcel post rate is 14 cents per lb. Registration where possible is 10 cents. C.O.D. orders can now be sent to Mexico.

FREE DELIVERY
FOR CERTAIN QUANTITIES OF SEEDS
We Deliver Free in the United States and Possessions, and Mex. co. by Parcel Post or Express to any express office at our option all vegetable and Flower Seeds by the Packet, Ounce and ¼ Pound, and up to and including ten pounds. All other orders, including bulbs, or 500 to 1,000 seeds postage must be added as per table at the right where goods are desired by parcel post.

Purchasers pay transit charges on larger quantities of seeds, and other merchandise, unless otherwise provided.

Please Order Early, thus enabling us to forward promptly. It will hasten forwarding materially, if customers will kindly make up orders alphabetically, as the goods are listed that way in the catalogue. Seeds are also put in compartments in our stores alphabetically, hence an order can be filled more quickly if it is made out in that manner.

Counter Customers—We suggest to those who purchase in person at our store the advantage of having their lists made out before they call. They may be left and called for later, taken at once, or shipped. In any case it is a great saving of time to the purchaser. The list should have full name and address written on it so that our catalogues may be mailed to the purchaser as issued. We also urge early purchases.

Error in the Filling of Orders—We use the greatest care in filling, checking and packing orders. Yet should anything be omitted we will promptly forward when advised. Keep a duplicate copy of your order for comparison.

Remittances may be made by Express Money Order, P. O. Money Order or Bank Draft; if stamps or cash send in a Registered Letter. We must have 100% of cost of goods C. O. D. unless 25 per cent, of their value accompanies the order.

Accounts—Parties having no account with us—who order goods without remittance—must furnish satisfactory reference.

NON-WARRANTY
The Germain Seed and Plant Company gives no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of seeds, bulbs, plants or trees they send out, and they will not be responsible in any way for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

Testimonials from Customers—We are always pleased to hear from our customers regarding the results of their gardens. Photographs of gardens and particularly of vegetables and flowers, are thankfully received by us.

Questions and Correspondence—We endeavor to answer promptly all letters of inquiry—which should be on separate paper from orders—but we cannot undertake the planning of entire gardens and grounds.

PARCEL POST WEIGHT LIMIT
The weight limit within the Los Angeles 50 Zones is 70 pounds, within the other Zones it is 50 pounds. The weight within the eighty-fourth zone (54 inches for combined length and largest girth) is 100 pounds. Packages of seed weighing 8 oz. or less can be forwarded anywhere in the U. S. at the cost of one and a half cents for each ounce, or fraction thereof.

- **BROUGHT FORWARD**

You will greatly oblige us if you will write here the names of friends who would be interested in receiving our catalog.

If you wish us to mail our AUTUMN CATALOG of Flower, Vegetable and other Seeds for Fall Sowing, mark X in the square. Issued August 15th.
FALL PLANTING—SPRING FLOWERING BULBS

Imported Dutch Bulbs have long played an important part in the American garden. It is by sheer worth and genuine merit that the Hyacinth, the Tulip and Daffodil have maintained themselves in a class apart. Inexpensive, easily grown and of surpassing beauty, they appear in full bloom long before their sleepy rivals awaken to the touch of Spring. It is well worth the small outlay to bring the joy of these spring flowers to your home.

The following pages contain a selection of the best that Holland can produce. We offer all the finest standard varieties and many deserving novelties which will delight the amateur.

The treatment of bulbs is so simple that anyone can grow them by following the brief directions given in this catalogue. Other prominent spring and summer flowering bulbs such as Lillies, Gladiolus, Freesias, Iris, etc., also may be planted at this time and are listed and described in the succeeding pages.

We have further included a number of flower and vegetable seeds—all to be planted during fall and winter. Sweet Peas, Stocks, Winter Marigolds, Pansies, etc., from early plantings, bloom abundantly in winter, while nothing is more delicious than a winter crop of vegetables from your own garden.

### TULIP

For a gorgeous display of color in a Spring Garden, the tulip has no equal. No flower offers a greater variety in vivid color combinations, exquisite shades and delicately blended tints, combined with a rare perfection of form which makes it altogether irreproachable.

**Culture**—Tulips prefer light soil; a rich sandy loam may not always be available but the addition of a liberal amount of sand and rotted manure or good fertilizer will produce wonderful results where soils are heavy. They should be planted four inches deep and five or six inches apart, or they may be scattered in the perennial border and allowed to become naturalized. A slightly shaded position will lengthen the blooming season.

When grown in pots or pans, which is easily done, they may be planted quite close together and about two inches deep, bearing in mind that a light, rich soil is equally important here.

#### DARWIN TULIPS

Too much cannot be said in praise of this class of tulips; they are tall vigorous growers, producing large flowers of perfect form and most brilliant in color. For planting in groups in the shrubby or perennial border, they are unsurpassed. As a cut flower, they are of great value and may be successfully grown in pots, especially if kept cool and allowed to come along naturally.

![Tulip Darwin Type](image_url)
**BREEDER TULIPS**

These fine Old Dutch or Breeder Tulips have become very prominent in the last two or three years and fortunately they do exceptionally well in our Southern California climate. They may be used in connection with the Darwin strain as they are similar in habit and appearance. The Breeders are rich in shades of bronze, terra-cotta, orange-brown, old gold, etc., colors which are entirely lacking in the Darwin group. By using both it is possible to improve and extend considerably the color range in tulips and add to your garden many artistic tones which modern taste in gardening seems to require.

We are offering this season a full collection of this remarkable group, including several novelties.

NEW HYBRID TULIPS
(Darwin X Cottage Garden)
The following novelties are the result of crosses between
the Darwin and cottage garden strains. They were
raised by Krelage & Son and other noted specialists
and have aroused much interest in recent European ex-
hibits, obtaining many awards. They are the latest in
Dutch bulbs and amateurs everywhere will observe them
with keen delight.

Ea. Doz. 100

Amber. (Award of Merit R.H.S.)
Round flower of unique coloring;
terra-cotta shaded amber, base yel-
low and blue.......................... $0.20 $2.00 $14.00

low base with blue edge.............. 20 2.00 14.00

Marvel. (Award of Merit H.B.G.S.)
Inside of old gold, outside salmon
rose, edged yellow. This variety is
not only very beautiful but also
distinctly sweet scented.............. 35 3.50 25.00

Triton. (Award of Merit H.B.G.S. &
N.H.B.S.) Elongated flower of most
dazzling carmine, base pure yellow
with light blue edge.................. 25 2.50 17.50

Collection of two each of the five
sorts ................................... $2.20

MAY-FLOWERING OR COTTAGE GARDEN
TULIPS

May-flowering tulips differ from Darwin tulips in the
shape of the flowers, which are either oval or pointed,
many being also reflexed. They blossom even later than
the Darwins and among them every known shade is to
be found.

Ea. Doz. 100

Bouton D'or or Golden Beauty. Pure
golden yellow (2 for 15 cents)..... $0.08 $0.80 $6.00

Elegance. Dark crimson, petals beauti-
fully reflexed......................... .08 .80 6.00

Gesneriana Major (Spathulata). True,
rich crimson scarlet with blue black
center .................................. .08 .80 6.00

Grenadier. Brilliant orange........... .08 .80 6.00

Inglescombe Pink. Delicate rose pink,
tinted salmon......................... .08 .80 6.00

John Ruskin. Salmon rose, edged lemon
yellow.................................. .08 .80 6.00

La Candeur. Silvery white............. .08 .80 6.00

Mrs. Moon. Large rich yellow, blooms
long and pointed: reflexed. A splen-
did flower ...................... .08 .80 6.00

Parfian Yellow. Clear yellow........... .08 .80 6.00

Picotee (Maiden's Blush). White, mar-
gined carmine rose, greatly admired
and popular.......................... .08 .80 6.00

Shandon Bells. (Isabella or Blushing
Bride.) Color, primrose flushed
rose, changing to rosy red......... .08 .80 6.00

Mixed. A high grade mixture contain-
ing all colors known in tulips, suit-
able for bedding and border planting........................................ $0.06 $0.60 4.50

ODD OLD DUTCH TULIPS

Ea. Doz. 100

Bizarres. A very old tall growing
race; the flowers are all striped and
feathered brown or maroon on yel-
low ground ............................ $0.10 $1.00 $7.00

Bybloemen. Striped and feathered
rose and violet...................... .10 1.00 7.00

Rembrandt Tulips. Delicate shades
with stripes and flames of darker
colors. Beautiful combinations...
.15 1.50 10.00

Parrot Tulips. These do not grow tall
like the foregoing, unfortunately,
but they are always popular. The
flowers are fringed, corrugated and
curiously twisted and oddly varie-
gated in color.......................... .10 .75 5.50

Collection. Three each of the above
four kinds................................ $1.00

DOUBLE TULIPS

The double tulips belong to the early flowering class.
They are excellent for pot culture, especially in jard-
dinieres with bulb fibre. In the garden they succeed best
in shaded locations and last well when cut.

Ea. Doz. 100

Mixed colors .......................... $0.10 $0.75 $5.50

All Bulbs are Priced [3] F. O. B. Los Angeles
NARCISSUS OR DAFFODIL

The Narcissus is one of the most useful of the early blooming bulbs, being hardy and of easy culture.

**Culture**—Plant from October to January, covering the bulbs from 5 to 8 inches. They will thrive in any good garden soil, if this can be enriched with some well-rotted manure or bone meal, so much the better, but do not dig in fresh manure. Plant six inches apart. They are valuable for pot culture and indoor decoration. Grown in bulb fibre any dish or jardiniere will do as no drainage is necessary. Simply keep the fibre moist at all times, but never sodden.

Parcel Post and Other Information [4] on Inside Front Cover
HYACINTH

To simply mention the Hyacinth brings to mind a picture of Spring—certainly we cannot think of Spring without the Hyacinth, it is so eminently the flower of Spring.

Culture—The bulbs may be planted in the open from October to January in any good garden soil which has been well spaded up. They should be six or eight inches apart and covered from four to six inches.

Pot Culture—Plant one bulb in a five-inch pot. A six-inch pot will hold three or four. Use light soil and place a few corks in bottom of pots for drainage. The top of the bulb should be about even with the surface of the soil. Keep in a cool dark place for five or six weeks until the roots are fully developed, then gradually inure to the light.

In Glasses. Fill the glass with water so as to barely touch the base of the bulb. A piece of charcoal the size of a walnut, put into the water, will keep it pure and obviate frequent changing. Keep in a dark cool place until the roots have fairly started, then remove to the light.

In Bulb Fibre. Bulb fibre may be used to great advantage when growing bulbs for home decoration. As no drainage is necessary, any receptacle can be used to plant them in and there is no danger of water running on furniture or floors.

GERMAIN'S EXHIBITION HYACINTHS

| General de Wet | Very fine light rose, a pink form of the popular lavender blue variety “Grand Maitre”. | $0.25 | $2.75 | $21.00 |
| Gertrude | Carmine rose, large spike, a compact grower of a deep rose color, sometimes described as light red | .25 | 2.75 | 21.00 |
| Lady Derby | Bright rose pink, an excellent variety for pot culture, producing a remarkably fine large spike | .25 | 2.75 | 21.00 |
| La Victoire | Bright glistening deep carmine red, an excellent exhibition variety | .25 | 2.75 | 21.00 |
| Roi des Belges | Deep red | .25 | 2.75 | 21.00 |
| Moreno | Bright pink, large bells, an improved form of Norma. The large spikes produce bells in greater number and of a brighter shade of pink | .25 | 2.75 | 21.00 |
| La Grandesse | Pure white, splendid spike | .25 | 2.75 | 21.00 |
| L’Innocence | Pure white extra large truss. The best all-round white hyacinth for all purposes, forces well and is equally good for bedding | .25 | 2.75 | 21.00 |
| Grand Maitre | Deep porcelain blue | .25 | 2.75 | 21.00 |
| Duke of Westminster | Dark purple bells with white eye | .25 | 2.75 | 21.00 |
| Lord Balfour | Purplish violet, large, broad spike | .25 | 2.75 | 21.00 |
| Queen of the Blues | Beautiful pale azure blue in color, and perfect in form | .25 | 2.75 | 21.00 |
| King of the Blues | Dark blue | .25 | 2.75 | 21.00 |
| City of Haarlem | Bright golden yellow, best yellow | .25 | 2.75 | 21.00 |
| Yellow Hammer | Pure yellow, early | .25 | 2.75 | 21.00 |
| Mixed | Assorted from finest named varieties | .25 | 2.50 | 20.00 |

GERMAIN'S SELECT BEDDING HYACINTHS

These plump, good sized roots send up large full spikes, rivalling the "top roots."

They can be safely recommended for all bedding purposes and pot culture. The bulbs are, of course, somewhat smaller than the exhibition size.

| General de Wet | Light Rose | $0.15 | 1.75 | 12.50 |
| Gertrude | Carmine rose | .15 | 1.75 | 12.50 |
| Lady Derby | Rose pink | .15 | 1.75 | 12.50 |
| La Victoire | Carmine red | .15 | 1.75 | 12.50 |
| Moreno | Bright pink | .15 | 1.75 | 12.50 |
| L'Innocence | Pure white | .15 | 1.75 | 12.50 |
| Grand Maitre | Deep porcelain blue | .15 | 1.75 | 12.50 |
| King of the Blues | Dark blue | .15 | 1.75 | 12.50 |
| Queen of the Blues | Azure blue | .15 | 1.75 | 12.50 |
| City of Haarlem | Yellow | .15 | 1.75 | 12.50 |
| All Colors, Choice mixed | | .15 | 1.50 | 11.00 |

Plant the Winter Sweet Peas [5] for Early Spring Blooms
NAMED DOUBLE HYACINTHS
The double Hyacinths are not as popular as the single sorts and we offer only a few varieties which we consider the best and well worth growing.

**Ea. Doz. 100**
Noble par Merite. Pink, extra fine...$0.30 $3.00 $22.00
President Roosevelt. Bright rosy red... .30 3.00 22.00
La Grandesse. Pure white, very fine... .30 3.00 22.00
Garrick. Clear blue.......................... .30 3.00 22.00
Goethe. Light yellow, fine truss........... .30 3.00 22.00

GERMAIN'S "SUNSET" BEDDING HYACINTHS
These are simply smaller bulbs of the regular Dutch Hyacinth. Planted somewhat closer in pots or boxes, or in beds in the garden they bloom profusely and are very satisfactory.

2 for Doz. 100
General de Wet. Light rose.................. $0.25 $1.25 $9.00
Gertrude. Carmine rose...................... .25 1.25 9.00

City of Haarlem. Yellow.................... .25 1.25 9.00
All Colors. Choice mixed................... .25 1.25 9.00

CROCUS
Crocus require very little attention and they are one of the first flowers to bloom in the Spring. Planted in masses or 3 or 4 rows arranged in a border, they are very effective. They must not be planted more than one inch deep as if planted too deeply they sometimes fail to bloom. Crocuses are often planted in the lawn where they come up very early in the Spring and are practically over blooming before the lawn needs much mowing. This method is more popular in the east and if tried here it had best be done where there is some shade. They are ornamental when flowered in pots.

Cloth of Gold. Golden yellow and Ea. Doz. 100
brown ........................................ $0.05 $0.50 $3.50
Montblanc. Pure white........................ .05 .50 3.50
President Lincoln. Deep purple........... .05 .50 3.50
Sir Walter Scott. White, striped lav-
ender-blue .................................... .05 .50 3.50
Yellow Mammoth. Extra large ............. .10 .75 5.50
All Colors. Mixed .......................... .05 .50 3.50

AGAPANTHUS
Umbrallatus

**Ea. Doz.**
Blue African Lily. Bearing clusters of bright blue flowers on stout stalks, similar to the Amaryllis in appearance and culture. A valuable specimen for tub or pot culture. Planted in the Full they will bloom in July and August............ $0.35 $3.50

ANEMONE
One of the most showy and beautiful flowers; of neat and compact growth, with elegantly cut foliage and the most brilliantly colored blossoms. It requires but little attention. For best effect, plant in masses.

Culture—Anemones require a rich, loamy soil. Soak the roots in water for six hours previous to planting. This causes them to swell and enables one to distinguish the crown, which is readily discernible by the fibrous points at the top of the root, the bottom being quite smooth. A sunny place is best. Place a slight ridge around the bed so that the plants may be flooded with water. Plant any time from October to May. They bloom from February to July.

**Ea. Doz. 100**
Choice Mixed ................................ $0.10 $0.75 $3.50

AMARYLLIS

**Ea. Doz.**
Bella Donna—"Bella Donna Lily,” blush, delicately shaded with pink or light purple, flowering before the leaves appear, very fragrant and fine for cut flowers, lasting fully a week when cut. Plant in a sunny position, leaving the neck even with the surface of the soil.

First Size .................................. $0.25 $2.50
Second Size ................................. .15 1.50

Amaryllis Vittata—American Hybrids. Our strain of American hybrid Amaryllis is unsurpassed. The flowers average over 8 inches in diameter and range in color from almost pure white, through rose, carmine, cherry red, scarlet and crimson, to deep maroon. Many are striped and mottled. The flowers are flat and spreading, with full rounded and overlapping petals. The amaryllis are of easy culture and may be planted in the open in this section. In colder sections plant them in pots. Selected bulbs which will bloom in first season .75 7.50

Odd Dutch Tulips [6] are a Rare Novelty
BEGONIA
Tuberous Rooted
This splendid class of begonias is perhaps the handsomest of all bedding plants for a shady or semi-shaded location. Bulbs may be started in pots early in February or in the open later in the Spring. They prefer a rich sandy loam, and should be covered to a depth of two or three inches. Ready about February 1st.

Single, separate colors: Rose, scarlet, yellow, white; or mixed... $0.35 $3.50
Double, separate colors: Scarlet, rose, white, yellow; or mixed... .50 5.00

CALADIUM
Elephant's Ear
The leaves of immense size on massive stems grow to a height of four feet. For a tropical effect this plant has no equal.

When planting, leave crowns even with the surface of the ground, water sparingly until they are fairly started, but water abundantly when in active growth.

First size... $0.25 $2.50
Ready for shipment in December.

CALOCHORTUS
or Mariposa Lily
These famous California flowers possess much delicacy and brilliancy of coloring. They resemble a tulip.

Mixed, all colors... $0.10 $0.75 $5.50

CRINUM
Ramona Lily
Moorei. Flowers delicate pink resembling the Belladonna Lily... $0.50 $5.00

CALLA LILY
Known to every lover of flowers. It is one of the most beautiful blooms, and cannot be too highly recommended.
Culture—Callas are very easy to grow, and to be successful they need only be given a good rich soil and an abundance of water. May be planted either in a sunny or half shady place. The white variety may be planted from July to March, and will bloom all year excepting during June, July and August. The yellow variety is ready in December and should be planted shortly afterwards.

Aethiopica, the White Calla Lily, or Lily of the Nile,
First Size... $0.35 $3.50
Second Size... .25 2.50

ELLIOITIANA, THE YELLOW CALLA LILY
This is the finest Calla grown; large deep, rich golden yellow color. The leaves are spotted with white, habit like our old favorite White Calla. Ready for shipment January 1st.

Small Size... $0.15 $1.50
Medium Size... .25 2.50
Large Size... .35 3.50 Extra Large... 50 5.00

For Tropical Effects [7] Plant Caladium
FREESIA

Culture—Freesias are very easily raised. Plant to the depth of two inches in any good, sandy soil, any time from August to November, and the flowers will appear during January and until March.

NEW COLORED FREESIAS

Beautifully colored and sweet-scented, these new freesias are admirable cut flowers and thrive particularly well in our California winter climate.

No Garden is Complete [8] Without Iris
**SPANISH AND DUTCH IRIS**
The Spanish Irises have been in cultivation for many years. These beautiful ornamental flowers vary in color from white to yellow, violet, blue and purple. They are very easily grown in half-shaded situations, and the flowers are valuable for cutting. A great favorite with florists. Plant in rows or clumps about three inches deep and from three to five inches apart.

GLADIOLUS
(Sword Lily)
The gladiolus is invaluable as a summer flower, and its popularity has increased tremendously in the last few years. Our list contains only the best sorts, varieties which have been tried and proven to give the most satisfactory results both as cut flowers and for garden display. When cutting, do so as soon as one or two flowers are expanded. The rest of the buds will open in water if care is taken to remove faded flowers, changing water daily and cutting a piece off the stem each time.
Culture—The bulbs should be planted from three to five inches deep in any good light or sandy garden soil. They flourish best in an open sunny situation.
Gladiolus bulbs ready in November.

LILY OF THE VALLEY

Ea. Doz. 100

Lily of the Valley. The pips, or slender running root stalks should be planted in moderately rich, moist soil in shady situations. Planted from January to March they bloom from April to June.

$0.10 $1.00 $7.00

ORNITHOGALUM
(Star of Bethlehem)

Ea. Doz.

Arabicum. Beautiful variety throwing a tall spike of numerous star-shaped flowers with a jet-black center and having a distinct aromatic perfume, decidedly pretty when grown in the garden. Large size.

$0.10 $1.00

PANCRATIUM
(Spider Lily)

Ea. Doz.

Carribeum. Strange and beautiful flower. Pure white and sweetly scented.

$0.25 $2.50

LILY

We cannot say too much in praise of this elegant class of plants, which are becoming more popular every year. It does not seem necessary to attempt an improvement on that which is already perfect, as the lily is. Nature has endowed the lily with every element of grace and beauty, not only in outline but in color; happy blending of colors, form most varied and beautiful, fragrance delightful; in short all the characters essential to real beauty.

Culture—In open ground: dig well, add some sand and well rotted manure (except for Auratum, which will not bear manure) and plant about five inches deep.

L. Giganteum (Easter Lily). Ready about November; other varieties about the middle of December. They bloom as follows:

Giganteum in April and May; other varieties in July and August.

Ea. Doz.

Auratum. “Golden Banded Lily,” the finest and most magnificent of the genus. Flowers white, spotted crimson with a distinct golden stripe running through each petal.

$0.35 $3.50

Formosum. Pure white, one of the best flowers, easily forced.

$0.35 $3.50

Giganteum. Large flowering, pure white lily of strong and healthy growth, can be forced into bloom for Easter.

$0.35 $3.50

Rubrum. “The Red Lily of Japan.” Carmine rose on white ground, spotted with crimson. The most showy of Japanese lilies for the garden and an excellent cut flower.

$0.35 $3.50

$0.35 $3.50

"Consider the Lilies." [11] They are Beautiful
MONTBRETIA

*Mentbretia* Crocosmiae flora. Long spikes of showy, orange-colored flowers, with purple, brilliant and showy ........................................... $0.10 $0.75 $5.50

**RANUNCULUS**
*(Fair Maids of France)*

These beauties from the fair Land of France have become the most popular flowers to be found in the display window of all Los Angeles flower shops during their blooming season. The flowers of our selected strain are double with a graceful fullness suggestive of a full-bloom rose. They keep fresher and longer when cut than any other flower we know. The colors are surprisingly bright and cheerful, appearing in many shades of rose, red, salmon, yellow, maroon and white. The picture on the cover of this catalogue gives some idea of their graceful form, but it is not possible to portray here their extraordinary brilliancy and variety of coloring.

Soak the roots in water for two hours before planting and cover with two inches of soil. They should be planted rather closely for the best garden display, 4 to 6 inches being an average distance apart.

TUBEROSE

Double Pearl. Far superior to the old double variety, growing only about two feet high, with large individual double white florets, which have longer foot stalks than the old variety, rendering them more useful for cut flower purposes. Large bulbs $0.10 $1.00 $7.50

Mexican Everblooming Single. Delightfully fragrant, very free flowering and of the easiest culture. .08 .75 5.50

WATSONIA

Similar to the Gladiolus, even in culture. It grows about four feet high and produces a wonderful profusion of flowers which are in bloom about Eastern time. Ready for planting in August.

American Beauty. A charming shade of deep rose .00 1.50
Pure White .10 1.00
Pink .10 1.00
Mixed Hybrids .15 1.50

ZEPHYRANTHES

(Zephyr Flower, or Fairy Lilies)

Very effective for massing or borders, flowering in great profusion during spring and summer; also suitable for pot culture, a few bulbs potted in the fall will give a fine display during the winter.

Alba. Pure white .00 1.00
Rosea. Rose pink .10 1.00

PREPARED BULB FIBRE

Germain's prepared fibre is becoming more popular every season. It is far more convenient than potting soil when planting bulbs indoors, and replaces to advantage the pebbles used in growing Chinese Lilies, etc., in bowls as it contains plant food which stimulates the plant and improves the blossoms.

No drainage is needed, consequently any receptacle may be used and bulbs will bloom splendidly in a jardiniere, lily bowl, or dish having no perforation whatever in the base. This eliminates any danger of water and soil running through on furniture, floors, or carpets. The material is clean and free from any odor.

Plant bulbs as you would in soil but do not press the fibre too firmly, nor fill the bowl too full. Keep moist but not too wet or sodden. Start the bulbs in a dark, cool place and bring to the light when sprouted an inch or so. Hyacinths, Narcissus, Chinese Lilies, Tulips, Freesias, Crocus, etc., are grown to perfection in this way.

Price: Packet (enough for 6 or 7 inch bowl) 15s; per lb. 25c.

Any Information in Regard to Planting [1 3] Will Be Gladly Given Upon Request
FLOWER SEEDS

Many of the varieties listed in this catalogue, such as winter flowering Sweet Peas, Stocks, Calendulas, Pansies, etc., bloom during the winter months if planted early in the fall, all will make much stronger plants and flower more abundantly when wintered over.

A complete list of flower seeds, descriptions and directions for planting will be found in our general catalogue issued January last each year.

Abbreviations used: A, Annual; N, Biennial; P, Perennial; B, useful for bouquets or cut flowers.

ALYSSUM
Fragrant and pretty. Nothing better for borders or parkways.

MIGNONETTE

Van Waveren's Giant is the [15] Last Word in Daffodils
PANSY or HEARTSEASE

CULTURE—To have pansies in perfection, sowings should be made every month from the end of July to the end of April. Young, vigorous stock always gives the best results. Sow in pans or frames and transplant when large enough to a border or rich soil. Water must be given freely in bright weather and the flowers gathered as soon as they begin to wilt in order to keep up a succession and prevent running to seed, which injures the plants and tends to small flowers.

GERMAIN'S GIANT PRIZE PANSIES

What could be more interesting to any lover of flowers than a bed of Pansies fresh with the morning dew, some clad in their rich velvety petals and others turning their smiling faces upward asking only to be appreciated in their brief effort to make the world a little more beautiful.

Germain's Giant Prize Mixture contains a selection of all the giant flowered varieties including the largest petals, color and fancy blotched and shaded sorts, and the choicest imported frilled variegated, and orchid flowered varieties. A strain unequaled for beauty and variety of color.

25 cents per package, or the full Collection of Six for $1.25.

GERMAIN'S PERFECT GIANT FLOWERING Sorts

The bedding pansies do not produce flowers quite so large as the Giants but they are hardy and persistent bloomers, excellent for bedding where the mass of bloom rather than the size of the individual flowers is most important.

HOW TO GROW SWEET PEA
Sweet peas are deep rooting. The soil where they are to be planted should be dug to a depth of eighteen inches. They are slow feeders and a liberal amount of fertilizer will insure luxuriant growth and later flowering. Dig the fertilizer well under and see that the soil has settled and is firm before the seeds are planted. This result can be obtained by covering the seeds with three inches of earth. This is soon in shallow trenches about three inches deep and covered only one or 1 1/2 inches. The balance of the bed is filled in after the young plants are between a few inches high. The plants which are six inches high may be covered with the seed more than one inch at any time. Seeds may be spaced one inch apart. See that the ground is well drained and the plants gradually thinned to six inches to prevent crowding.
A support for the vines must be provided early. They require a liberal amount of water. The flowers must be gathered often and should any seed pods form, these must be immediately removed to insure a prolonged blooming period.
In growing sweet peas out of season, the vines are protected with cloches, until the weather becomes settled. If the cloches are stretched above the plants it provides sufficient protection against strong sunshine in summer and occasional low temperatures in winter.

For Winter Cutting [17] Plant Nee Stocks
GERMAIN'S NEW WINTER SWEET PEA

"SUPERIOR PINK" is the highest achievement of our foremost Sweet Pea specialists. It created a sensation at the Seedsmen's Convention at Del Mar during the spring. We highly recommend it with the conviction that it is the largest, strongest and most beautiful pink sweet pea we ever have had the privilege to offer.

GERMAIN'S NEW WINTER SWEET PEA

"Superior Pink"

SUPERIOR PINK. The supreme rose-pink. Three pkts. for $1.00.

SWEET LAVENDER. True lavender is an immensely popular shade in sweet peas, and our new "Sweet Lavender" will easily surpass any other variety in the lavender group. Sweet Lavender is a large lavender of enormous size, beautifully frilled and always bearing fours on good long stems. Three pkts. for $1.00.

MRS. KERR. This unique sweet pea has given universal satisfaction. It is unquestionably the best early salmon

ELDORADO. Splendid glowing orange. Early, free flowering and of robust growth. Eldorado has shown greater resistance to sunburn than any orange variety previously introduced. In the winter garden it is simply a blaze of color.

GERMAIN'S FOUR FOREMOST WINTER SWEET PEAS

The four varieties above described have been selected for excellence as well as novelty. They are indeed the four foremost winter flowering sweet peas of the season. One packet each of Germain's Four Foremost Winter Sweet Peas...

The H. G. Baker
home on
Arden St.
Pasadena

We carry a complete line of grass seeds of all kinds. The common varieties are listed below.

KENTUCKY BLUE GRASS—Premium Grade—is the finest grade of Blue Grass on the market. Grown from specially selected strains and in carefully selected fields, the seed gives the greatest satisfaction, due to its quality, purity and freedom from other seed. Per lb. 70c; 10 lbs. $6.50, postpaid.

WHITE CLOVER. Our seed is strictly first-class, absolutely clean and pure and of the highest quality. Per lb. 90c; 10 lbs. $8.00, postpaid.

KENTUCKY BLUE GRASS and WHITE CLOVER MIXED. This favorite lawn mixture is made of Premium Grade Seeds mixed in the right proportion. Per lb. 85c; 10 lbs. $7.50, postpaid.

AUSTRALIAN, OR PERENNIAL RYE GRASS. An extremely hardy sort, requiring less fertile soil and withstanding more hardships. Used extensively in Arizona and becoming very popular in Southern California. Per lb. 35c; 10 lbs. $3.00, postpaid.

The verdict of all who have used the Nuvida Lawn and Garden Fertilizer is that it is the most complete and satisfactory Lawn Dressing ever placed on the market. It is manufactured so as to contain all the elements required and in the proper proportions to produce a luxuriant growth. It is a clean, odorless material and can be applied without offending one's sense of smell or sight. Being quick in action the effect can be noticed within a very short time by the rich green coloring and that velvety appearance so much sought after. Its superiority over stable manure can scarcely be estimated, as the latter, in addition to disfiguring the lawn by its unsightly appearance, also gives out an unpleasant odor, and always contains weeds and other undesirable seeds.

Trial bag for 300 square feet, 10 lbs. $0.60
25 lb. sacks for 750 square feet. 1.10
50 lb. sacks for 1000 square feet. 2.25
100 lb. sacks for 2000 square feet. 4.00

Lavender flowers .10

XERANTHIEUM. A. Very attractive double flowers of medium size which are easily dried. Many shades of red, rose and white mixed .10

This tool is all machine made, with all working parts detachable, and the metal of each part selected for its particular use. The angle of the teeth, and its weight, keep it in the ground in the heaviest lawn. The sharp blades cut the grass in sections and the cross-cutter bar completes the work. A lawn raked and cross raked is free of all runners and the work has left a perfect seed bed to sow clover or grass seed. Brown Bermuda lawns can be skinned in the fall with this tool with a fraction of the labor necessary by any other method. Many lawns burn out in spots because the heavy soil has become impervious. Occasional use of the Bermuda Raker will so loosen the soil it will again take water. Price each $5.00.

The Everlasting Flowers Will [19] Brighten the Dullest Day
# VEGETABLE SEED LIST

There are a number of vegetables that can be planted in the fall. We recommend the following varieties knowing that you will obtain excellent results if the seed is planted and cared for.

For descriptions, planting instructions and complete list of Vegetable Seeds, see our general catalogue. A pamphlet giving cultural directions for any of the varieties listed may be had on application.

All prices listed are postpaid.

Los Angeles Germain's California
POPULAR ROSES AND ORNAMENTAL SHRUBS

For Fall Planting We Know of No Better Selection than These Varieties

The prices mentioned below are all F. O. B. Los Angeles. Add 5c to each item for postage.

RED RADIANCE. A sport from the well known pink form. Flowers equal in size, but of a deep, rosy red color, buds and sepals concolorous. Deliciously fragrant; a constant and free bloomer. An ideal Rose for cut flower purposes.

CLIMBING ROSES

CLIMBING HOOTON BEAUTY. A new rose. The climbing form of the popular and well known bush variety. Dark velvety red.

AMERICAN PILLAR. Color a rich rosy carmine with a golden eye in the bud; a rich rosy yellow with a coppery base, shading to bright salmon with brilliant copper suffusion. Each.

THE WONDERFUL FLOWERING ROSE "LOS ANGELES"

It is a Rose without a fault. It is strong in growth, sending out enormous canes clothed with dark, handsome foliage. The foliage is mildew proof. It is hardy, deliciously fragrant and during the spring, summer and autumn months produces an endless succession of ravishingly beautiful blossoms. The blooms are large, globose, which open to a flower of glorious size. Its color is of transcendent beauty, being an indescribable tone of flame pink, with superb golden yellow shadings at the base of the petals. The color combinations in the open flower possess a fire and intensity not found in any other Rose. Our stock for the present season is limited. Each...

MAD. EDOUARD HERRIOTT

The famous Daily Mail Rose. Winner of the $5,000 prize at the International Baseball tournament at their lawn, London, England. Bud scarlet red shade with yellow at base. Open flowers of medium size, when fully expanded they take on a beautiful cup shape. Very free and long blooming and the flower ages it passes to bright, rosy scarlet and shrimp red each.

SOULE DE CLERMONT

A striking sunflower yellow color, deeper in the center, without any other blending; very large and full, beautifully fragrant. The buds are pointed which open to a flower of a flower of beautiful size. Its color is of transcendent beauty, being an indescribable tone of flame pink, with superb golden yellow shadings at the base of the petals. The color combinations in the open flower possess a fire and intensity not found in any other Rose. Each...

GOLDEN EMBLEM

Flower similar in color to the "Carmine" and having the same crimson stripe on outer petals, with a white stripe on inner ones. Growth free and branching with splendid constitution, deep glossy green foliage, stout stalks and mildew-proof; produces a fine quality. Ideal for the best yellow roses grown.

MRS. H. A. RINDGE

A rich chocolate color, very well defined. Fragrant and a good keeper. As the flowers open they are suffused with soft pink, foliage glossy. Each.

ROSE MARIE

A rich chocolate color, very well defined. Fragrant and a good keeper. As the flowers open they are suffused with soft pink, foliage glossy. Each.

WH. F. DREER ROSE

The flowers, which are similar in shape to Los Angeles, and like that variety, beautiful. The color, which is a rich deep rose with a coppery eye, is produced in the large-flowered flowers. The flowers are the best variety of those varieties known as the best yellow roses grown.

COLUMBIA

A rose which has been very popular and which is generally well known among flower buyers throughout America. In color a delightfully light shade of rose pink. In outdoor planting can be expected to bloom freely through a long season.

MAMAN COCHET

Deep rose-pink, inner side of petals silvery rose; very double. Extra strong grower; fine bloomer. One of the finest Roses by far that has been introduced. Each.

RADIANCE

A Rose of American origin and to our mind one of the best varieties in cultivation today. Buds long and pointed, expanding into blossoms of enormous size. Similar in shape to Caroline Testout, but in color deep rich pink.

CLIMBING ROSES

CLIMBING GRUS AT. PAPYRI: Gotier. Color, rich red; a beauty.

ORNAMENTAL SHRUBS

RUDDELLA (or Butterfly Bush). A comparatively new variety from China, with clusters of delicately colored lilac flowers. These are produced throughout the greater portion of the year. A plant of handsome growth. Each

CRATAEGUS LALANDI (Fire Thorns). A splendid, free growing shrub that bears clusters of crimson berries, at the ends of the orange-red berries.

C. CRENILATA

An evergreen shrub, named; a magnificent shrub.

COPROSMA BAUERI

A shrub that has the most glossy-green foliage of any; especially well suited for seashore places, as it thrives most wonderfully under the influence of salt sea breezes. We recommend it very highly.

HEDYRANGEA

One of the most popular shrubs in existence, and deservedly so. It produces immense trusses of pink flowers. With the addition of iron to the soil in which they are grown, the showier flowering will be improved.

EUONYMUS JAPONICUS

A free growing, useful evergreen shrub that comes in several varieties, such as the "Green" and "Golden". It is known as the spindle tree and is of the easiest culture.

PITTOSPORUM TOBIHARA

Quite different in habit from all other pittosporums, being more upright and with longer foliage. A fine town plant.

PITTOSPORUM UMELS." A very handsome—known of all the pittosporums and a splendid lawn or parkway shrub. It has wavy, deep green foliage and wavy edges. A valuable shrub. This, with time, attains the dimensions of a medium sized tree and we strongly recommend it.

PARIS. J. JULIUS CEPNETZ

A splendid shrub for seaside purposes, combining the best of foliage and beautiful golden-yellow orchid-like flowers. A popular shrub and justly so, for it is quite different in habit from all other pittosporums and a splendid lawn or parkway shrub. It has wavy, deep green foliage and wavy edges. A valuable shrub. This, with time, attains the dimensions of a medium sized tree and we strongly recommend it.

VERONICA

We grow immense quantities of this splendid evergreen shrub. It is of a neat habit of growth and is not very high and easy to grow. summer is covered with graceful blossoms of purple or wine-crimson according to the variety. We recommend this very highly.

CUPRESSUS (CYPRESS)

C. ARIZONICA. An erect growing cypress with bluish-green foliage and pyramidal habit. Fine for windscreens and windbreaks and very hardy.

C. MACROCARPA (Monterey Cypress). A very hardy, quick growing cypress, handsome even in the smallest sizes. It is a multi-stemmed plant and is used for purposes or can be grown as a single specimen. It is of a neat habit of growth and does well in the seaside. It can be grown as a shrub or as a small tree. Conifers do not thrive.

C. SEMIPERVIRENS (Italian Cypress). Grows naturally in the rose family. It is used in the Italian gardens or for planting on lawns when it is advisable to keep the view open.

COTONEASTER

A shrub which is becoming very popular for various purposes. It is a fine small tree or shrub for the garden or as a windbreak. But it is not hardy in the cold regions.

GOLDEN PRIVET

A well known plant with small yellow perfoliate berries. A useful and attractive shrub. Stands trimming and useful for mixing with other shrubs.
GERMAIN’S NEW SPENCER SWEET PEAS

Spencer Sweet Peas may be planted any time from October until Spring and frequently give best results when planted in early Fall.

MARY PICKFORD
The Sweet Pea named for Mary Pickford is one of the choicest Spencer varieties ever introduced, and is absolutely incomparable in its own artistic shade. It is a beautiful light and dainty pink with just the faintest suffusion of salmon, making a delicate color combination difficult to equal... $0.25

MISS CALIFORNIA
In Miss California we have a Sweet Pea novelty which compels admiration and attention wherever grown. The general effect is a rich, beautiful, salmon cream pink of a distinctly new shade. A splendid companion variety to Mary Pickford... $0.25

Heavenly Blue. A fine new blue of a most beautiful soft tone of Delphinium blue... $0.25

The President Harding. (Named by special permission of the late President of the United States.) It is an entirely new and most pleasing color in sweet peas—peach-red or salmon-cerise, suffused orange... $0.25

Powers Court. This splendid new lavender is of English origin and has received the highest awards... $0.25

GERMAIN’S COLLECTION OF SWEET PEAS OF MERIT
The five varieties listed above represent the cream of the latest Spencer creations. We offer the collection of five outstanding Spencer varieties for... $1.00

For winter flowering Sweet Peas and other Spencer Varieties, see page 18.

RANUNCULUS
The value of ranunculus as a bedding plant is not sufficiently known. A large solid bed of ranunculus will lend an air of distinction to your garden which is not otherwise obtainable.

To help in establishing these more extensive plantings we offer this season our unrivalled strain in plump one year old flowering size bulbs at a price within the reach of all. Packages are put up and sold as follows:
